EmblemHealth is requesting premium rate increases for certain plans. Your premium is the amount you pay each month for insurance. As you know, the cost of hospital stays, prescription drugs, and other health services continues to go up. Each of these costs drive premiums. We want to assure you that we are mindful of the impact increases in premiums can have on you and your family, and we are taking every step to ensure that you have access to affordable, high-quality coverage.

EmblemHealth’s individual plans serve over 9,000 subscribers and 12,000 members. We have looked carefully at how medical costs are escalating and have submitted the below rate increases to the New York State Department of Financial Services (DFS). DFS will decide if the rate increases are appropriate.

Why do we need to increase premiums?

We increase premiums due to the rise in the cost of medical care, including the costs of hospital stays, prescription drugs, and other health services. Most of your premium goes toward paying for medical and pharmacy claims for members. In fact, New York State requires that at least 82% of the premium you pay directly covers member medical costs. As the cost and use of pharmacy drugs and medical services go up, so does the cost of medical care we must pay for. We expect that medical and pharmacy costs will continue to go up, on average, by 15% in 2022 and 2023.

Will all plans have the same premium increase?

No, your premium will increase based on your plan.

When will premiums increase?

Your premium will increase on your renewal date of **Jan. 1, 2023**. EmblemHealth will send you a notice before your renewal date to let you know how much your premium is increasing.

Are these rates final?

No, these rates are not final. Your final renewal rate may be different from the proposed increases shown above. DFS may approve, modify, or deny the adjustment. EmblemHealth will notify you of your final, approved rate at least 60 days before your renewal date.
