0.01% Readmission Rate

FAST TURN OVER TIME

Less Waiting Time

CARE COORDINATION

Direct Access to a Clinical Liaison
and Logistics Team

500+ Total Joint Replacement
Procedures Performed Since Inception

The Concierge Program Provides Premier Care and Clinical Coordination to Support Your Patients

The program ensures that EmblemHealth patients requiring surgery will be treated by high quality in-network surgeons with extensive experience with total joint replacement surgeries.

EmblemHealth primary care providers will have access to direct communication with our clinical staff and orthopedic surgeons.

The Concierge program allows access to expedited appointment scheduling with an in-network surgeon, and guides patients throughout their **surgical journey** beginning at the point of referral all the way through post-operative care.
